---

### Description

The associative elective has four distinct paths:

EA1 - Set up a creativity approach in your association

EA2 - Structuring your association: creating values, processes and stakeholder management

EA3 - Set up a risk management approach in your associations

EA4 - IT project management

Other paths could eventually be created depending on the problems encountered by the associations.

### Quarter number

SG6

### Prerequisites (in terms of CS courses)

Belonging to a specific association / associative project.

### Syllabus

Work on the mastery of these skills/knowledge through the establishment of concrete deliverables defined beforehand in the context of the path EA<sub>x</sub>, which should allow a good evaluation of the acquisition of skills.

### Class components (lecture, labs, etc.)

Specific to each path EA<sub>x</sub>.

### Grading

Establishment of precise deliverables regularly submitted.

### Resources

3 courses of 1h plus deliverables to submit frequently over the course period.

**Learning outcomes covered on the course**

Specific to each path EAx.

**Description of the skills acquired at the end of the course**

Specific to each path EAx, but competencies C4, C6, C7, C8 and C9 could be validated with this course.
